Grubb & Ellis AGA Realty Income Fund Announces Dividend

Important notes

Past performance does not guarantee future results.

Mutual fund investing involves risk, including the potential loss of principal.

Investors should be aware of the risks involved with investing in a fund concentrating in REITs and real estate securities, such as declines in the value of real estate and increased susceptibility to adverse economic or regulatory developments. Investments in asset backed and mortgage backed securities include additional risks that investors should be aware of, such as credit risk, prepayment risk, possible illiquidity and default, as well as increased susceptibility to adverse economic developments. Investing in small and medium-sized companies involves greater risks than those associated with investing in large company stocks, such as business risk, significant stock price fluctuations and illiquidity. Investments in debt securities typically decrease in value when interest rates rise. This risk is usually greater for longer-term debt securities. Diversification does not assure a profit or protect against a loss in a declining market.

To determine if this fund is an appropriate investment for you, carefully consider the fund's investment objectives, risk factors, charges and expenses before investing. This and other information can be found in the fund's prospectus, which may be obtained by visiting www.gbemutualfunds.com or calling 877.404.7822. Read the prospectus carefully before investing.
